### OVERVIEW

#### Purpose

The purpose of this report is to support the integrity and transparency in Government Contracting Practices through annual reporting activities. It enhances the transparency of Government Contracting Practices while presenting meaningful and useful information in a timely manner.

#### Introduction

The organization of this report is based on the Government of Nunavut's (GN) Contracting Procedures and information available from Nunavut Housing Corporation's databases. The report provides statistical information and contract details about the Nunavut Housing Corporation's contracts and operating and maintenance expenditures for the fiscal year 2020 - 2021.

#### Report Overview

The report focuses on the distribution of contracts awarded to companies in accordance with their NNI registration identification (NNI status). The registration IDs are noted below.

<b>INUIT:</b>	Inuit owned business registered with NTI
<b>NUNAVUT:</b>	Government of Nunavut registered business
<b>OTHER:</b>	None of the above.

In the supporting data sheets, a company that is both NTI and NNI (NTI/NNI) registered is classified in the summary information as Inuit; A company that is NNI registered only is classified in the summary information as Nunavut; Companies without NTI or NNI are grouped under 'other'.

The detailed contract information is organized into **Section A** and **Section B**.

Section A deals with 'Major Construction'. As per the Government of Nunavut's Contracting Procedures Manual, the data in Section A includes contracts with a value of \$25,000 or greater.

Section B is devoted to the operating and maintenance expenditures and includes Goods, Services, Maintenance, Leases and all other contracts over \$5,000.

**SUMMARY OF SECTION A—MAJOR CONSTRUCTION CONTRACTS**

This section contains all major construction contracts of \$25,000 or higher that were awarded during the fiscal year 2020 - 2021.

<b>CONTRACT TYPE</b>	<b>AMOUNT</b>	<b>PERCENTAGE</b>
Public Tender	\$ 71,062,863	100%
Public Request for Proposal	0	0%
<b>Total</b>	<b>\$ 71,062,863</b>	<b>100%</b>

<b>NNI STATUS</b>	<b>AMOUNT</b>	<b>PERCENTAGE</b>

NUNAVUT	0	0%
OTHER	0	0%
<b>Total</b>	<b>\$ 71,062,863</b>	<b>100%</b>

The information was recorded at the time the contract was awarded. The award value does not reflect the amount actually paid out. If information is required on the status of the contract, that can be provided upon request. While the NHC strives for transparency, it is to be noted that proprietary information may not be released for contractual and legal reasons.

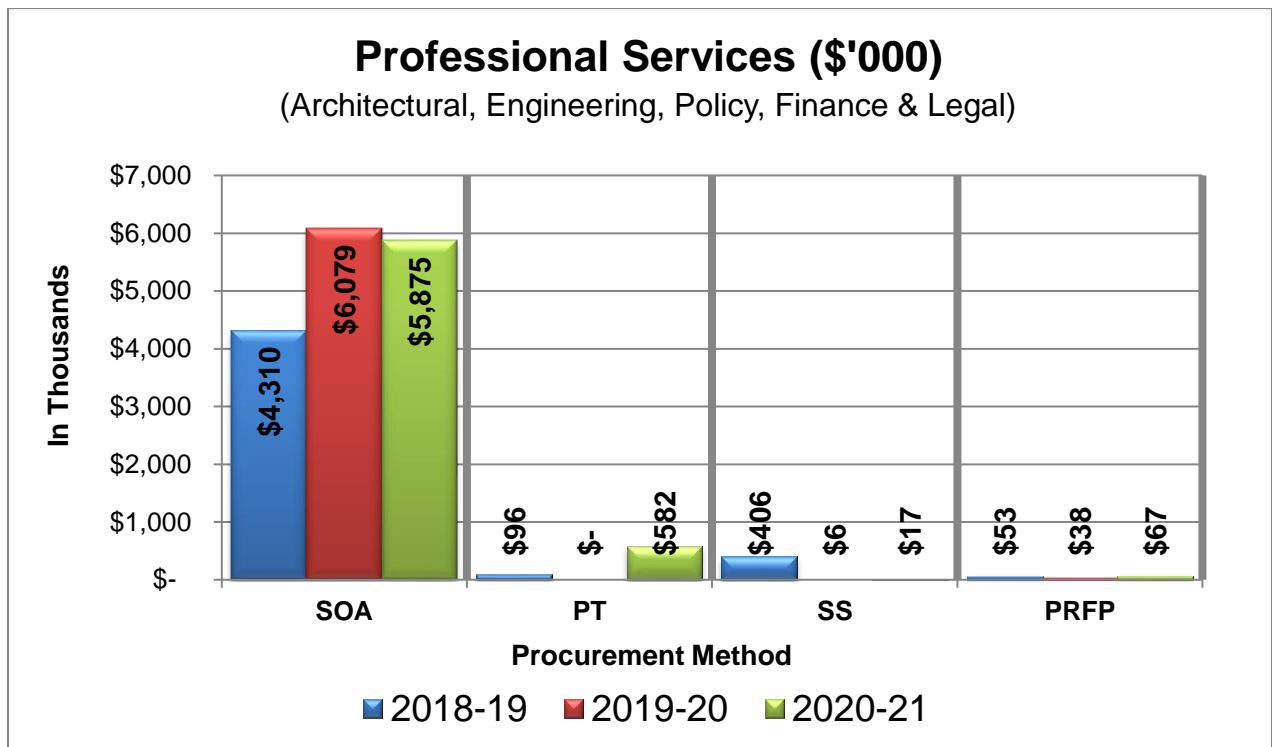

**SUMMARY OF SECTION B—O&M EXPENDITURES**

**Professional Services**

This section provides information on service contracts. The contracts are primarily for professional services such as architectural, engineering, financial and legal services.

NUNAVUT	111,965	4%
OTHER	1,258,244	43%
<b>Total</b>	<b>\$ 2,926,662</b>	<b>100%</b>

## Leases

This section provides information on leases held by the NHC which are used for public and staff housing.

In 2020 - 2021, new leases were primarily procured through Public Request for Proposals (PRFP). Where possible, NHC opted to renew majority of the leases under the same vendors, as the units were already occupied by NHC public housing or staff housing tenants and failing to renew the leases would cause significant disruption to operations.

Leases acquired through Memoranda of Understanding (MOUs) are in respect of units acquired on behalf of departments of the Government of Nunavut. All new and all renewed leases are for durations of between one and five years.

## NHC CONTRACTING REPORT: 2020-2021

### Sole Source Comparison

Sole Source contracting practices are monitored closely. NHC believes can be able to get the best value for money through competitive bidding processes. However, there are limited instances where the GN's contracting procedures permit awarding contracts without competition. Listed below are the acceptable conditions for awarding contracts without competition:

1. The goods, services or construction are urgently required, and delay would be injurious to the public interest
2. Only one party is available and capable of performing the contract
3. The contract is an architectural or engineering contract that will not exceed \$25,000 in value or is any other type of contract that will not exceed \$5,000 in value.

2019-20 & 2020-21 Comparison

**Goods:** Majority of the Sole Source contracts are for specialized software and computer services.

**Leases:** There are instances when NHC must enter into lease agreements via sole source due to the scarcity of available rental units.

**Services:** The decrease is due to the completion of existing contracts and management was able to enter in to Standing Offer Agreements to provide these services.

### Terms

**Goods:** In this report, “Goods” means contracts for the purchased goods that are primarily entered into by Nunavut Housing Corporation using a purchase order.

**Invitational Tender:** are those tenders for which tender documents are sent only to contractors or suppliers specifically selected to submit tenders.

**Public Tender:** are those tenders which are publicly advertised.

**Sole Source:** is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following is applicable:

- a) The goods, services, or construction are urgently required, and delay would be injurious to the public interest; or
- b) Only one party is available and capable of performing the contract or
- c) The contract is an architectural or engineering contract that will not exceed \$25,000; or
- d) Or any other type of contract that will not exceed \$5,000 in value.

**Request for Proposal (RFP):** has been defined as follows, “when the government knows what the result should be, but not necessarily how best to achieve it, therefore the government seeks proposals on methods, ability, and price. Government can thereby negotiate the best method to achieve the best value”.

**Tender:** A tender may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
