RE: Question 1257-6(2) – Igloolik Airport

Dear MLA Quassa,

I am writing as a follow-up to a question you brought forward during oral question period on May 27, 2025, regarding Igloolik's airport.

In my response at the time, I mentioned several airports for which we currently had funding secured under Transport Canada's Airports Capital Assistance Program (ACAP), as well as a number of other that we were in the process of submitting to the program for consideration.

Depending on the progress of the funded projects, and our success in getting the others approved, the department aims to be in a position to submit a proposal to rehabilitate the Igloolik Airport airfield surfaces and lighting systems in 2027. If there is an opportunity to address this project sooner, the department will do so but given the number of competing capital priorities I want to be realistic with setting your expectations.

In the meantime, my department is committed to supporting projects to improve Nunavut airports and best meet the needs of travellers. Staff from the Nunavut Airports Division regularly assess all the airport surfaces and will take appropriate action if they note any specific concerns with the Igloolik runway.

I look forward to continuing our discussions in the coming weeks.

Sincerely,
