

## Written Question

**Asked by:** Adam Arreak Lightstone

**Asked of:** Hon. Patterk Netser

**Minister Responsible for the Nunavut Arctic College**

**Number:** 33-5(2)

**Date:** May 30, 2019

**Subject:** Ensuring Nunavut's Future Professionals are FASD Informed

---

**Purpose:** It is clear that FASD is effecting many Nunavummiut, and I am concerned that Government of Nunavut's front line workers may not be properly informed on the impacts of FASD. I would like to inquire if Nunavut Arctic College has;

1. Had to accommodate for the needs of learners who have confirmed FASD;  
and
2. If educators have received training on how to accommodate varying learning needs for students with confirmed or suspected FASD

The mission of Nunavut Arctic College states that it is committed to "delivering high quality adult education programs developed with input from partners throughout the Arctic and Canada.

3. Has Nunavut Arctic College sought input on from partners throughout the Arctic and Canada on the implications of FASD?

Considering many frontline workers may not be properly informed on the impacts of FASD, I would like to know if Nunavut Arctic College is

Adam Arreak Lightstone

incorporating the implications of FASD into course syllabus of the following programs, if so to what extent?

- a. Nunavut Teacher Education Bachelor of Education
- b. Early Childhood Education Diploma
- c. Arctic Nursing Bachelor of Science
- d. Social Worker Diploma
- e. If FASD has not been incorporated into the syllabus, when will this be done?
